

Kevin Nguyen, DPT, Software Engineer

832-731-2299 | Houston, TX

kpnguyen.com | Kpnguyen2@gmail.com | github.com/kpnguyen9 | linkedin.com/in/kpnguyen9

Seeking a position as a Full Stack Junior Software Engineer. I am a strong problem solver who is eager to start, always willing to learn, encourages constructive criticism, and emphasizes excellent communication in a work and personal environment. Previously I was a Physical Therapist with a history of working with patients to help them with resolving pain and returning to their prior level of function.

SKILLS

JavaScript, React, Node, Redux, Express, SQL, MySQL, PostgreSQL, Sequelize, MongoDB, Mongoose, RESTful API, EJS Templating, HTML5, CSS, Bootstrap, Material UI, AWS, Git, GitHub, JSON Web Token

PROJECTS

Kevin's Blog - github.com/kpnguyen9/React101/tree/final

April 2022

- React App I created to get a better understanding of React components and hooks. The app features the ability to retrieve all blogs from a database, create blogs, and delete blogs with a chosen author that is also part of the database.
- Built with: JavaScript, React, HTML, CSS, Material UI

Project Euler Problems - github.com/kpnguyen9/Project-Euler-Problems

April 2022 to Present

- I have been working to solve Euler challenges through the writing of algorithms to improve my coding logic and prepare for technical interviews. Follow along with my progress in the repo link.

Git 'Er Dun - github.com/kpnguyen9/BackendGiterdun

March 2022

- Back-End web app created by a 4-person development team that allows users to create custom To-Do lists in their personal accounts. The app features the ability to add, delete, and edit user list titles and tasks along with authentication upon user log-in and registration of new accounts.
- Built with: JavaScript, Express, Node, MongoDB, EJS Templating, HTML, CSS, Bootstrap, JWT

Happy Campers - github.com/kpnguyen9/firstGroupProject

January 2022

- See the App: happy-campers-app-working.netlify.app/
- Front-End web app created by a 3-person development team that allows users to find campsites upon user input of the National Park of their choice. The app lists out relevant National Parks. When the user selects a park, the app renders a list of associated campsites with details and links to make reservations. The current weather forecast of the park is also rendered.
- Built with: JavaScript, HTML5, CSS, Bootstrap

WORK EXPERIENCE

Star Therapy Services

September 2020 – May 2022

- Clinic Director/Manager and Physical Therapist in an outpatient setting.
- Managed staff in a healthcare setting to provide best quality of care and service.
- Communicated with patients on their diagnoses and plan of care for best outcome in rehab.
- Collaborated with physical therapists to deliver patient care to return to prior level of function.

Select Physical Therapy

August 2018 – September 2020

- Outpatient Physical Therapist
- Collaborated with physical therapists to deliver patient care to return to prior level of function.
- Documented evaluations, treatment notes, and discharge summaries.
